Summary

Mern Stack Developer with internship is 6 months, plus personal projects. Skilled in React.js, React Native, Node.js, Next.js, JavaScript, Tailwind CSS, and Redux Toolkit. Good in building responsive, user-friendly, scalable website and Applications.

Skills

Hard Skills: React.js, React Native, Next.js, Node.js, JavaScript, HTML, CSS, Redux Toolkit, Context API, Tailwind CSS, Bootstrap, Material UI, API Integration, Git/GitHub, Figma.
Soft Skills: Problem-solving, Teamwork.

Experience

Web Developer Intern | April 2025 – Sep 2025
Orix Tech (Pvt) Ltd, Lahore | Tools Used: React.js, React-Native, Next.js, Redux Toolkit, Tailwind CSS

- Learned to build responsive web applications and understand project workflows in a professional environment.
- Gained hands-on experience with React, React-Native, Next.js, Redux Toolkit, Tailwind CSS.
- Practiced converting UI/UX designs into interactive components and integrating APIs.
- Improved coding skills and responsive design understanding.
- Developed problem-solving and collaboration skills in a real-world tech setting.

Projects

Farm2Market | Nov 2025 – Present
Tools Used: React Native, Tailwind CSS, Redux Toolkit, Api Integration, Node.js, MongoDB Atlas

- Developed a **full-stack e-commerce platform** connecting farmers directly with shopkeepers, eliminating middlemen and ensuring fair pricing.
- Implemented a **hybrid payment system** with Cash on Delivery for crops and online payment for delivery charges, enhancing transaction reliability.
- Integrated **real-time logistics and GPS tracking**, enabling **live delivery monitoring** and efficient vehicle management.
- Applied **AI-based demand forecasting** using seasonal and historical crop data to predict high-demand crops and optimize farming decisions.

HMA Khaddar e-commerce website | May 2024 – Jan 2025
Tools Used: React, Next.js, Redux Toolkit, Tailwind CSS

- Built a **dynamic e-commerce platform** with product listings, cart, and checkout flow.
- Implemented **responsive UI, mobile-first design, and Context API** for state management.
- Integrated **APIs** for product data and order management.
- Improved **UI/UX**, learned **API integration and state management**, and practiced **component-based architecture**.

Education

Bachelor of Science - Software Engineering

COMSATS University Islamabad, Wah Campus [09/09/2022 – Current]
